

Process made simple.

Capture and improve business processes in the cloud.

Process Made Simple

Quickly discover and document business processes and decisions in a environment designed for business users

Quickly Bring Processes to Life

Bring your well-designed business process models into IBM BAW's Process Designer to quickly implement: synchronize or import the BPMN model

Improve Processes

Capture process steps and document data to analyze and find areas for improvement

Playbacks

Step through predefined paths in the model to help users better understand the *happy path*, exception paths and other process outcomes

Automatic Process Layout

Generates BPMN 2.0 layout and documentation, without requiring users to connect objects

On-Demand Learning Tutorials

Take advantage of embedded video tutorials to create a simple process model in minutes.

Glossary

Standardize terminology and select preferred terms with a shared glossary

Template Library

Jumpstart your project by importing, editing and adapting one of the available 200 process model templates

Encourage Collaboration

Integrated communication enables users to share ideas and direct message

Secure Cloud-Based Solution

Nothing to download and nothing to install. Blueworks Live is a secure cloud-based solution

Centralized Process Repository

Eliminates version control and consistency issues, allowing you to see changes made over time.

GET RID OF STICKY NOTES,
WHITE BOARDS, PAPER AND
GENERIC DRAWING SOFTWARE.
START DIGITAL. STAY DIGITAL.

How to get started?

Sign up for a free 30-day full-access trial of IBM Blueworks Live at blueworkslive.com and begin process discovery in minutes.

Afterwards, invite your colleagues to collaborate with you!
